

# UAMT 2016 Survey: The Effect of Music Therapy Programs on Business Success

A survey analysis of trends in Utah Businesses who provide music therapy as part of their service programming. Results are based on responses from 25 Utah Business providing music therapy.  
Administered February-March 2016.

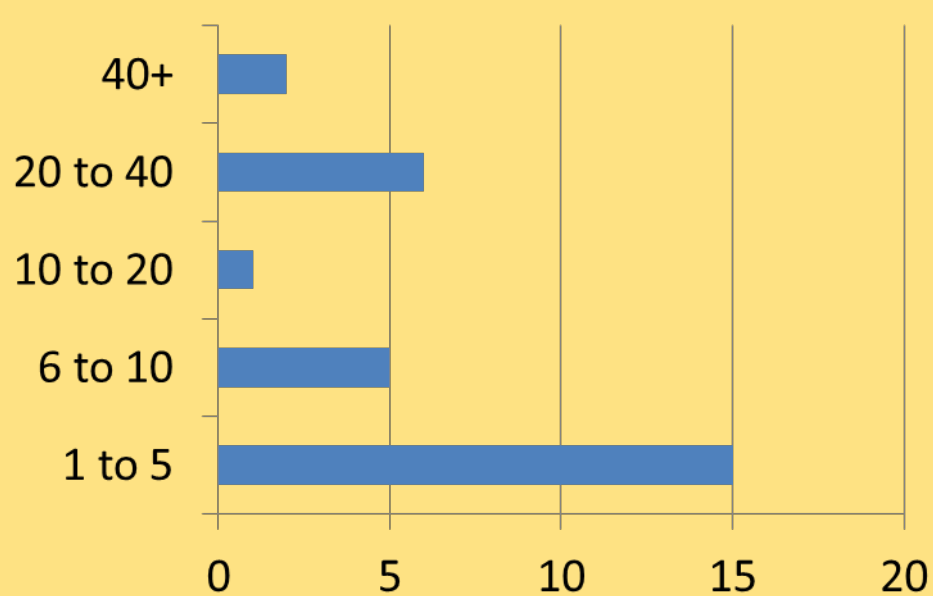

## Would you recommend MT to other businesses?

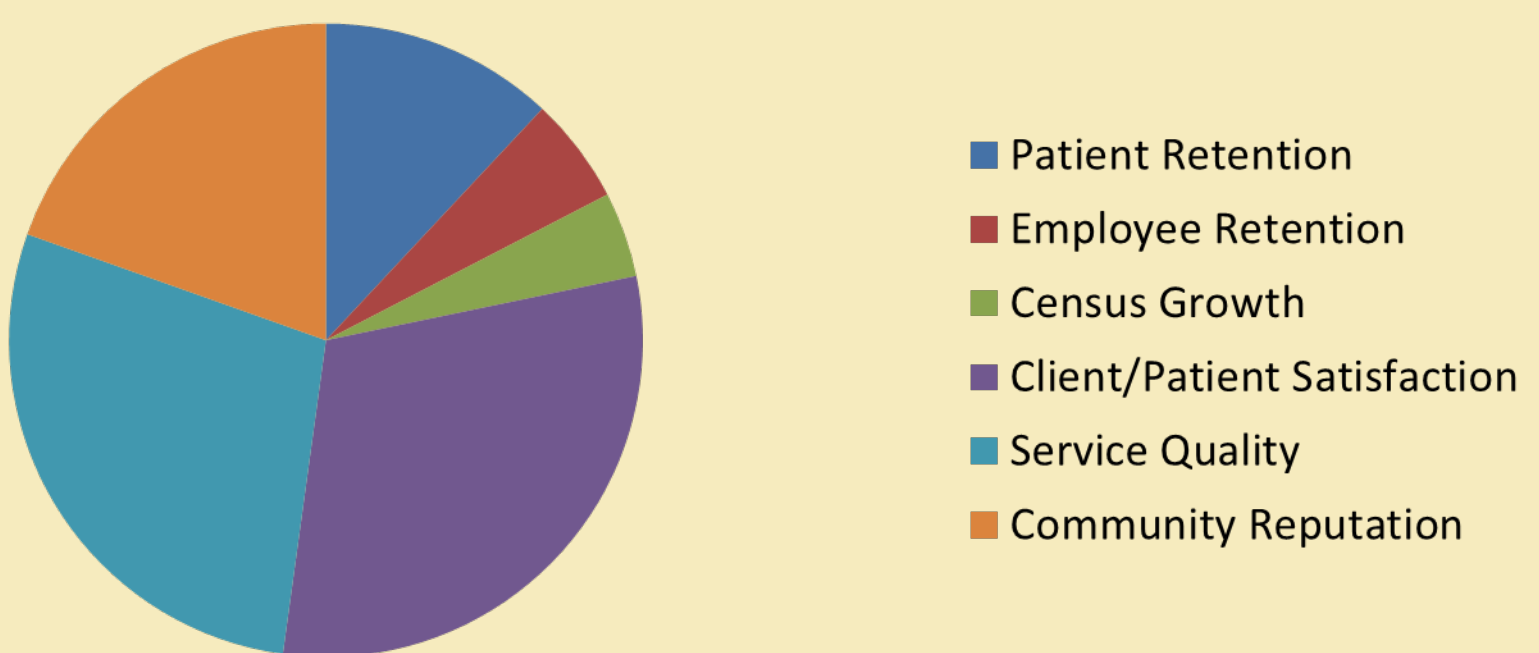

## How long has your company provided music therapy?

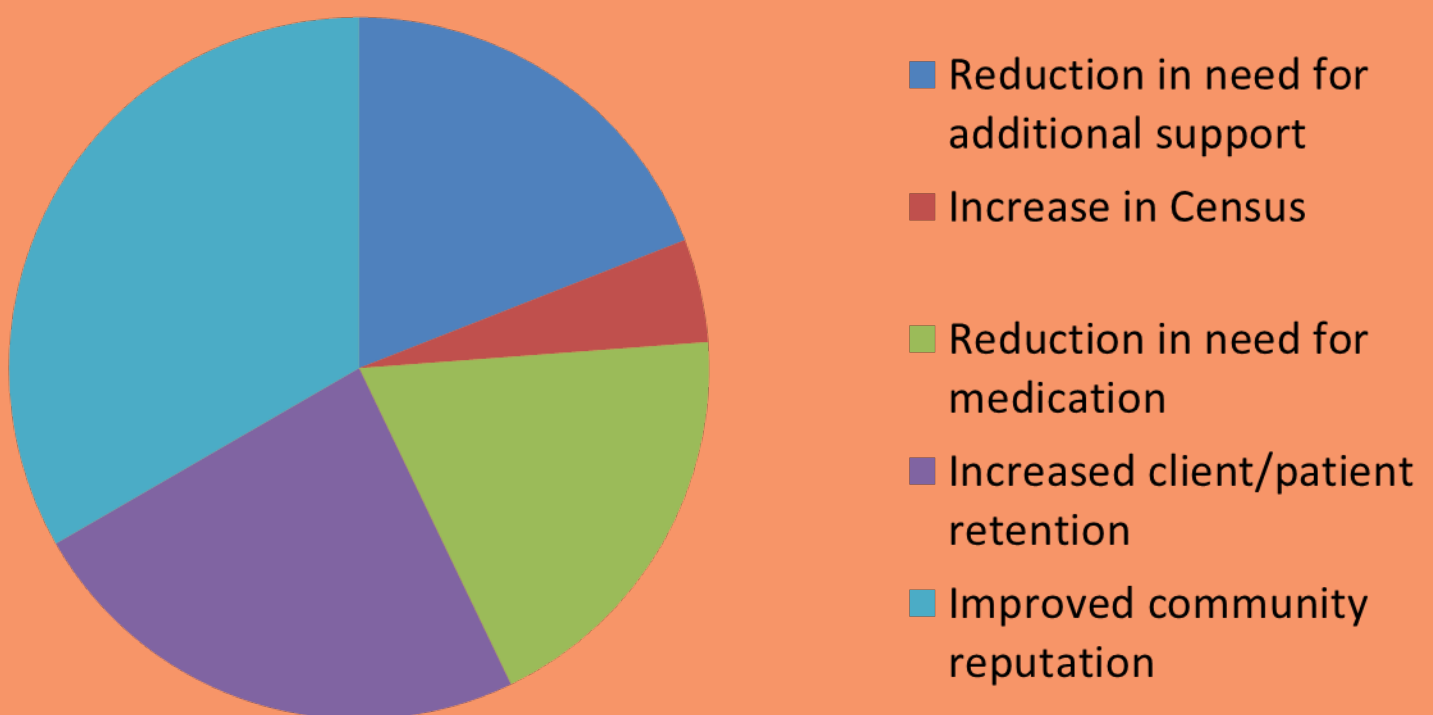

## How many hours/week do you provide music therapy?

## What areas has music therapy positively impacted for your business?

## Cost Benefits of Music Therapy Program

## Conclusion

Utah businesses who provide music therapy show an overwhelmingly positive experience with services. We see a great deal of current success, cost effectiveness, and satisfaction with services. We also see substantial room for growth for additional businesses to incorporate music therapy programs and increased hours for those currently providing the service.
